

15 November 2012

To Whom it May Concern

Acorn Building Solutions Pty Ltd has completed a range of projects and associated services for Brickworks Ltd throughout 2011 and 2012 including a major office extension, roof restoration works, refurbishment of various office areas, boardrooms, kitchens and sales areas, and landscaping works. Acorn continues to provide ongoing services to the various Brickworks entities and will remain a valued supplier for the group.

On each of the projects to date, Acorn has provided an outstanding result and has also managed the design and construction process remarkably.

As Project Manager Colin Laycock's construction knowledge, project management skills and attention to detail have been invaluable, ensuring the smooth completion of each stage of the projects.

Colin managed our expectations, budget constraints and requirements, delivering an outstanding solution each and every time.

It is without hesitation that I would recommend Colin Laycock, and his company, Acorn Building Solutions Pty Ltd.

Yours sincerely

Lindsay Partridge AM  
Managing Director
